

# Class C

## Summer Term 2017

Spring has sprung and with all the growing and changing the children are witnessing in the natural world, we have decided to make this our summer term topic.

Here is a brief outline of some of the areas your child will be covering this term.

### Literacy

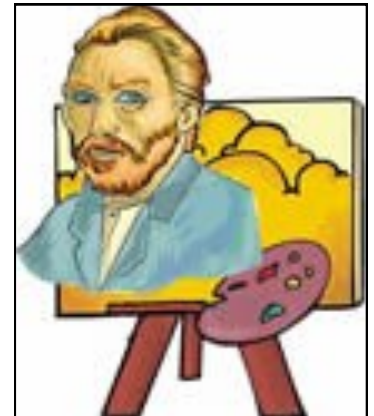

Focus on familiar stories and changing them slightly from the planning stage through to publishing them.

Produce an information leaflet about the lifecycle of butterflies.

Write about the life of Van Gogh.

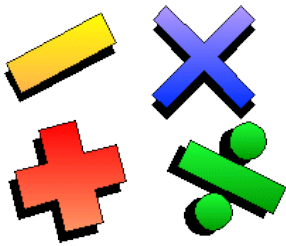

Write a recount of a school trip and a thank you letter to the organisers.

Write a diary of growing cress seeds.

## Numeracy

Continue to develop our understanding of the four basic operations; including solving word problems.

Understanding place value and what each digit represents in a number.

Working on fractions of shapes and quantities.

Measuring and reading scales.

## Science

We are having caterpillars in our classroom that we will watch develop into butterflies!

We will be growing plants and learning the names of the different parts and seeing what happens if plants don't get their basic requirements.

# Religious Education

We will be learning about the Jewish "Feast of Weeks" and sharing the Christian story of "Feeding the 5000".

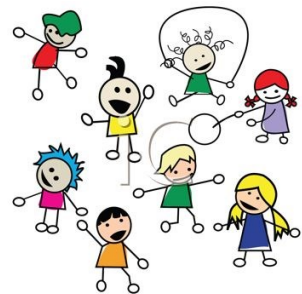

# Geography

Develop geographical vocabulary and produce a simple map showing some physical features. Study, compare and contrast the flora and fauna of our local area with that of a non-European country.

# PE

We will have our visiting PE teacher on Monday afternoons and a further outdoor PE lesson on Thursday afternoons.

# PSHE

Maintaining physical and emotional wellbeing. Having a positive attitude to learning and understanding what makes a good learner.

# ICT

In our coding lessons we will learn to write simple programmes to make objects disappear. We will use the internet to look at pictures relating to our topic and we will word process some work.

## Art / DT

Study the artist Victoria Horkan and her butterfly work.

Take inspirations from Van Gogh's Sunflower painting to produce it in different ways.

### Music

Our lessons will be based around "I wanna Play in a Band" a rock song for children.

### Homework

Homework will be set on Fridays to be returned by the following Friday.

### Reading

Regular reading at home should be recorded in Reading Record books
