

# Nursery Home Learning - Tuesday 31st March 2020

Please choose one task or do all three.

## Mathematics

In a baking tray or shallow tray or plate of flour or sand. Use your finger to write a numeral from 0-10. Challenge a grown up to identify the number. Then ask them to write you a number to identify.

Play a maths game on [topmarks.co.uk](http://topmarks.co.uk)

## Physical Development

It's nearly Easter so let's play bouncing bunnies.

Can you show someone at home how to bounce like a bunny?

How many bunny bounces can you do in 30 seconds?

How high can you bounce?

## Expressive Arts and Design

Miss Nicholls loves sunflowers, they brighten any day. Can you make a model of one, you could use playdoh, paper or card, empty cardboard tubes and boxes, or plastic tubes or pots. You can paint it or use coloured paper. I will leave it up to you. Think about how you could make the stem, the flower and the leaves.

We would love to see any models you make so please send me a picture.
