

Reception Home Learning - Tuesday 28th April 2020

PLEASE remember to join in with the RWI speed sound sessions every morning on the Ruth Misikin youtube channel and read your Read Write Inc books every day.

Mathematics

Listen to your favourite number song either 1 to 20 or back from 20.

I would like you to draw 5 beehives.

Draw and cut out ten little buzzy bees or use pennies or counters and pretend they are bees.

Your challenge is to find out how could the bees be shared out equally between the beehives.

How many would go in each beehive so that they have the same amount in each?

Read Write Inc

As above please take part in the speed sound lessons everyday on the Ruth Misikin youtube channel.

This will help you remember your letter sounds and help you practice for when we get back to school.

You can also play the teacher too and show your parents how to pronounce and write them 😊!

Literacy/Technology

Yesterday you read a story about a Happy Bee. Today, you are going to learn about bees. I am going to ask you some questions and I want you to research which means you find the answer 😊.

1. How many types of bees are there?
2. Draw two different types of bee.
3. Do bees sleep?
4. Where do bumblebees make their hives?
5. What do bees collect from flowers?

How many questions can you answer 😊!?!?

Expressive Arts and Design/Music

Design and make a buzzy bee headband.

Listen to 'Our Bee song' and buzz around like a bee.
