

Write the missing number in the box.

1  $5 \times 7 = \square$

5  $7 \times 7 = \square$

9  $2 \times 7 = \square$

2  $8 \times 7 = \square$

6  $3 \times 7 = \square$

10  $11 \times 7 = \square$

3  $1 \times 7 = \square$

7  $10 \times 7 = \square$

11  $6 \times 7 = \square$

4  $12 \times 7 = \square$

8  $4 \times 7 = \square$

12  $9 \times 7 = \square$

13  $28 \div 7 = \square$

17  $63 \div 7 = \square$

21  $84 \div 7 = \square$

14  $70 \div 7 = \square$

18  $42 \div 7 = \square$

22  $21 \div 7 = \square$

15  $14 \div 7 = \square$

19  $77 \div 7 = \square$

23  $56 \div 7 = \square$

16  $49 \div 7 = \square$

20  $0 \div 7 = \square$

24  $35 \div 7 = \square$

25  $\square \times 7 = 42$

29  $\square \times 7 = 14$

33  $\square \times 7 = 28$

26  $\square \times 7 = 77$

30  $\square \times 7 = 56$

34  $\square \times 7 = 70$

27  $\square \times 7 = 21$

31  $\square \times 7 = 35$

35  $\square \times 7 = 7$

28  $\square \times 7 = 63$

32  $\square \times 7 = 84$

36  $\square \times 7 = 49$

37  $\square \div 7 = 7$

41  $\square \div 7 = 6$

45  $\square \div 7 = 5$

38  $\square \div 7 = 4$

42  $\square \div 7 = 11$

46  $\square \div 7 = 2$

39  $\square \div 7 = 0$

43  $\square \div 7 = 8$

47  $\square \div 7 = 9$

40  $\square \div 7 = 10$

44  $\square \div 7 = 3$

48  $\square \div 7 = 12$
