

# Reception Home Learning - Monday 1<sup>st</sup> June 2020

PLEASE remember to join in with the RWI speed sound sessions every morning on the Ruth Miskin youtube channel and read your Read Write Inc books every day.

## Mathematics

The topic we are going to be looking at is 'Space'.

Count backwards from 10 to 0.

Now try from 15 to 0.

Can you challenge yourself from 20 to 0!

Can you make your own 2D shaped rocket?

Which shapes can you remember?

Can you describe them as you draw them?

## Expressive Art and Design

Can you design what you would wear as an astronaut? You could make an outfit or you can draw one.

Think about the colour, the helmet, the material.

Label it so I know what everything is.

## Literacy/Phonics

Remember to complete RWI.

Over the weekend a rocket owned by Elon Musk was launched into orbit. It was called SpaceX and had two astronauts on board. Watch it take off on the internet!

Astronauts travel to space and learn all about it, it's their job! How amazing is that?

Imagine you were an astronaut and you were going to fly in to space, what would you take with you?

You are only allowed **ten** things.

Write a list of what you would take with you?
