

Reception Home Learning - Wednesday 3rd June 2020

PLEASE remember to join in with the RWI speed sound sessions every morning on the Ruth Miskin youtube channel and read your Read Write Inc books every day.

Mathematics

Can you count in twos? How far can you get?

Can you complete the task without help?

Have a go!

Which 3D shapes can you remember?

Use some empty cardboard boxes and packaging to make a rocket model. Talk to an adult about the different 3D shapes you are using. Can you describe them? Which shapes are easier to build with? You can make a small model or a big model. Send me a picture of your model.

Literacy/Phonics

Remember to complete RWI.

Pretend you have just landed in your rocket on a strange planet.

Can you write about three things you can see?

Remember to think of your sentence first then write it. Write a full sentence.

Does it make sense? Read it back to yourself.

Expressive Art and Design

The big badge on a rocket is called the logo.

Can you design a big badge for your rocket?

What will your rocket be called?

Physical activity

You have to be fit to be an astronaut.

Pretend you are in training to be an astronaut.

Start by running on the spot.

A grown-up will shout out different commands e.g. 'faster' or 'slower'. Listen to the command and change your speed. Remember to pump your arms to help you run faster.
