

Reception Home Learning - Friday 8th January 2021

PLEASE remember to join in with the RWI speed sound lesson which will be sent through DOJO.

Mathematics

Listen to your favourite number song to 10 or 20.

Go for a walk in the garden with someone from your family and take two containers with you.

Collect six natural objects in your container and ask your family member to collect five different objects. How many objects did you find altogether?

Now go again and collect as many as you want and ask your family member to do the same. How many objects do you find this time? Take a picture and send me your fantastic maths work!

Physical Activity

Friday is usually our PE afternoon so I thought you could try and do some exercises at home to keep your mind and body fit. Run around or on the spot and ask a grown up to shout out instructions for you. When they shout 'up' you jump up, when they shout 'down' you crouch down and touch the ground.

Storytime

Listen to the story Be Brave Little Penguin written by Giles Andreae and Guy Parker.

https://youtu.be/DGNcK9sPI_k

Literacy

Write 2 sentences about the penguin from the story.
Can you write one sentence to describe how it looks?
Can you write one sentence to describe where he goes?
Remember to think about the sentence first then write it down.
Keep checking each word to make sure your sentence makes sense.

Science

On Monday we talked about ice and how it melts in hot/warm temperatures. Today, get 3 pieces of ice, place one in the freezer, one in the fridge and one outside. Let's see which one melts first. Remember to make a prediction on which one you think will melt first and see if you are right.
Check each day!
